

ICE RINK LIGHTING CIRCUITING

AS YOU CAN SEE, WE USE 40 LIGHT FIXTURES. THE DIFFERENT SHADES REPRESENT THE THREE BREAKERS (SWITCHES) AND THE FACT THAT THEY ARE SPREAD EVENLY AS OPPOSED SWITCHING ROWS WHICH ALLOWS US TO DIM THE LIGHT LEVEL EVENLY FOR THE EVENTS THAT DO NOT REQUIRE AS MUCH LIGHT. THE FOUR CORNER FIXTURES ARE BROUGHT IN SLIGHTLY SO NO SHADOW IS CAST AND REFLECTION FROM THE GLASS IS NOT AN ISSUE.
